

1

FACTSHEET ENQUIRY PHASE

This introductory phase gives you the opportunity to gather information and submit a detailed overview of the project, including the project plan, timing, milestones and more.

The proposal should consider each item in the *Request for Information* below.

After we have received the proposal, we will contact you to discuss your project and help you identify the best site for your operation.

Request For Information

Proponent details

- Contact details for company, e.g. ABN, Directors, company structure etc.
- Details of the type of company and its operations.

Project details

- Description of the overall objective of the proposed development – including details of the production quantity (if applicable) and end uses / markets.
- Details of major plant and equipment with a process diagram that indicates plant inputs and outputs (including quantities).
- Information regarding the types, quantities, and locations of hazardous materials to be used. As well as how the hazardous materials are being stored. (if applicable).
- Amount and source of all plant inputs including electricity, gas, water and any other necessary inputs for plant operations. Provide detailed information on the status of negotiations with service providers (e.g. power, water, gas) including the status of commitments (e.g. 'in discussion', 'executed non-disclosure agreement', 'memorandum of understanding', etc.).

Note: Proposals should be sufficiently advanced that the applicant can demonstrate with a degree of confidence that all critical inputs for the proposed activity are available.

- Amount and source of all plant outputs, derivatives, process by-products, waste and emissions.
- The emissions intensity of the proposed project, how the amount was calculated and how the project contributes to government emissions reduction targets.
- An indicative site layout showing the area required for administration, production, and related infrastructure (storage, transport, supply), environmental and safety buffers.
- A description of any novel or alternative equipment or processes to be employed and justification for inclusion in the proposed development.

Project details (cont.)

- Details of the input you have sought from authorities, which may include: Coordinator General, Port Corporations, Councils, Trade Investment Queensland (if a renewable hydrogen project).

Project offtake

- A description of the types and amounts of products to be manufactured
- For each product form, provide a description of the supply chain from distributing, storing and dispensing the material (if applicable) to the end users. Provide detailed information on the status of negotiations with customers or off-take partners including the status of these commitments (e.g. 'in discussion', 'executed non-disclosure agreement', 'memorandum of understanding' etc).

Note: Proposals should be sufficiently advanced that the applicant can demonstrate with a degree of confidence that customers for the proposed product are available.

Proponent capability

- Describe the parties involved and details of project vehicles, – including relevant corporate structures or joint ventures to deliver project and operate facility.
- Demonstrated capacity to deliver a greenfield industrial development of similar scale and complexity to the proposed development. Include details of any other development projects underway or successfully completed, providing a description of the development, location, indicative project cost and current status. If none, provide background on project formation, skills, key project staff and partnerships.
- Provide details of project partners, equipment suppliers, contractors, proposed plant operators where available.

Financial capacity

- Provide an indicative funding plan for the project including a description of the financial resources available to undertake the project, external funding requirements and proposed capital structure (debt and equity mix).
 - Provide detail and evidence of secured funding for “next steps” for the proposed development.
-

**Once completed, please submit your proposal to:
industrial@dasilgp.qld.gov.au**
